

 AMERICAN OF MARTINSVILLE

PIZZAZZ—the now furniture with the wow look—offers unexcelled practicality in girls' bedroom furniture.

Snow white Tartan-Clad vinyl veneer surfaces produce a soft femininity despite the hard practicality of stain-proof, scratch-resistant vinyl. This is truly wash-and-wear furniture.

You'll love the carefree aspects of PIZZAZZ, and that little girl will dig the groovy look.

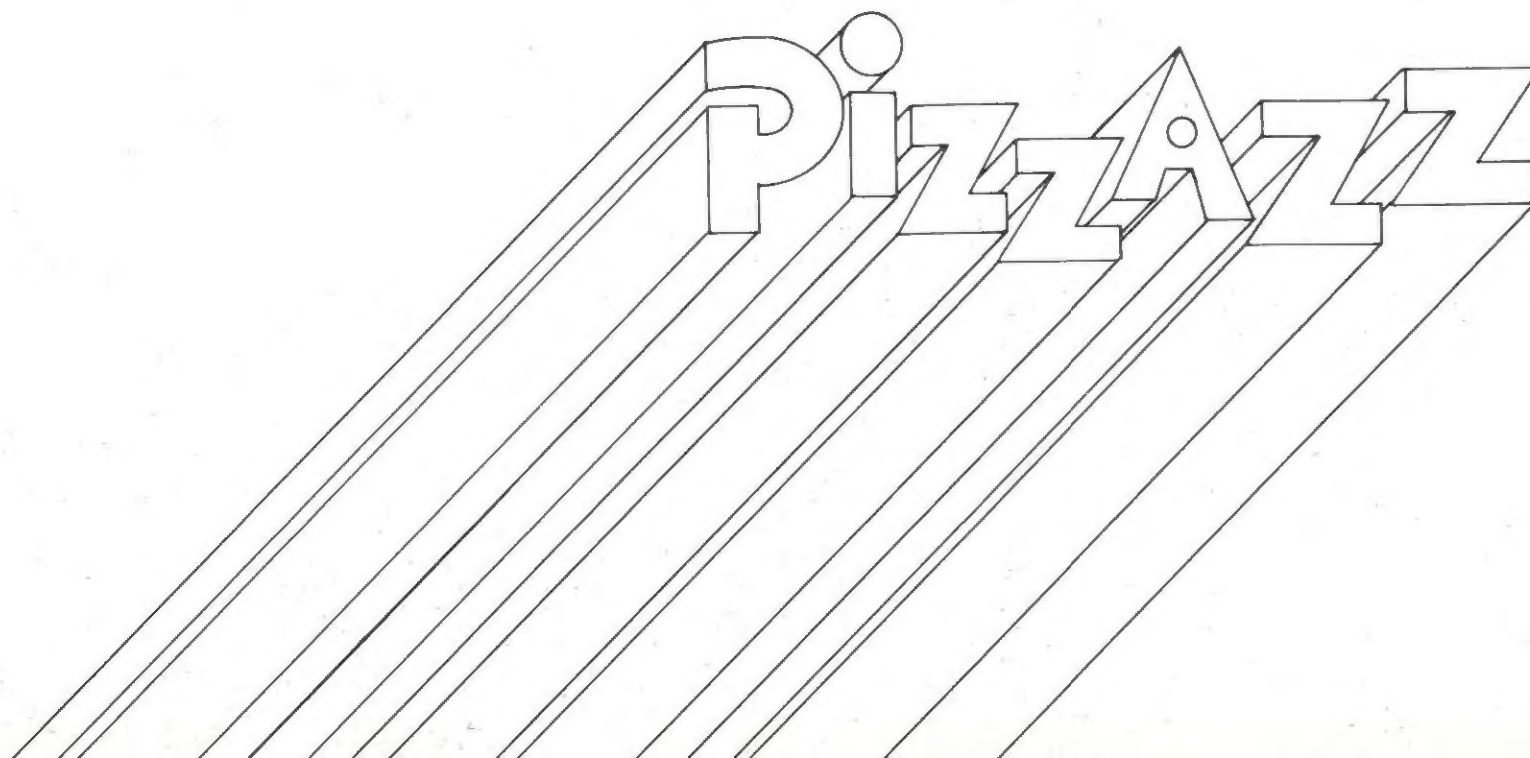

Bright 'n shiny brass hardware sparkles in contrast to the white-white background.

Oriental Lime accents on back panels, interiors, and campaign chest drawers complement today's brilliant decorating schemes.

And pick Hot Pink fabric accents on canopy, desk chair seat, and stacking stools for that super finishing touch. Or choose from our entire fabric selection.

And look at those out-of-sight pieces! Game table and stools designed especially for the younger set—a mini-armoire scaled so that the youngster can get full use of it—a corner bed table, the perfect space saver for rooms with roommates—and lighted stackable bookcases for the complete study center.

PIZZAZZ is now!
